

Dream 100 List

One of the fastest and most effective ways to rapidly grow your business is to create a list of the top 100 clients you would like to work with.

>>>These people are your Dream Clients and they can easily afford you. <<<

Having just one or two of these clients could actually double your business.

This exercise will often feel impossible midway through, and then a miracle occurs.

Additionally, this list needs to be fluid.

Cross people off after you get a no from them.

Add new people when they come to mind. *The Fortune Is In The Follow Up!

Here are a few to get you started:
